PROFESSIONAL SUMMARY

Full-stack Software Engineer with 2+ years of experience building scalable web applications using React, Angular.js, Node.js, Typescript and MongoDB. Skilled in REST API development, responsive UI design, and cloud deployments on AWS and GCP. Delivered end-to-end features across health-tech and edu-tech platforms with secure payment integrations and real-time functionality. Collaborative team player with strong ownership and a consistent record of shipping clean, maintainable code.

TECHNICAL SKILLS

Languages:	JavaScript, TypeScript, Dart, HTML
Frontend:	React.js, Redux, Redux Toolkit, Angular, Bootstrap, Tailwind CSS, React-strap
Backend:	Node.js, Express.js, Socket.IO
Databases:	MongoDB (NoSQL), MySQL (SQL), Firebase Storage
Cloud & Storage:	AWS (S3, EC2), GCP (VM Instance, Storage Buckets), Cloudinary
Integrations:	Razor pay, Cashfree, Stripe, Google OAuth 2.0, Multer, Sharp
Tools:	Git, Bitbucket, GitLab, GitHub, Docker, RESTful APIs, Agile, DSA

WORK EXPERIENCE

Software Engineer | AppZoy Technologies Pvt. Ltd.

Dec 2024 – Present

- Developed and maintained full-stack features using React, Node.js, Express, and MongoDB within a team of 8+ engineers, contributing to both UI and API layers.
- Built secure, responsive UI screens using React, HTML, CSS, and Reactstrap/Bootstrap, improving cross-device consistency across all major browsers.
- Contributed to REST API development and performance improvements, reducing response times for key endpoints.
- Collaborated with backend and QA teams in Agile sprints to ensure smooth feature releases and timely bug resolution.
- Utilized Git, Docker, and Agile workflows to maintain code quality and streamline deployment pipelines.

Junior Software Developer | Eduvy Technologies Pvt Ltd

Jun 2024 – Dec 2024

- Independently built 2 backend services and 1 frontend from scratch using Node.js, Express.js, Angular.js, and MongoDB, owning the full development lifecycle for each.
- Designed and implemented RESTful APIs for 2 core backend services, enabling real-time data flow and seamless integration with the frontend layer.
- Collaborated with team and QA teams across bi-weekly Agile sprints to deliver features on schedule and reduce post-release bugs.
- Participated in requirement gathering sessions, translating business needs into technical deliverables.

PROJECTS

SVAIM – Health Centre Software Solution | *React.js, Node.js, Express.js, MongoDB, GCP*

A comprehensive health centre platform enabling quick diagnostic report management (MRI, CT, X-ray, lab) for radiologists, doctors, technicians etc.

- Implemented Server-Sent Events (SSE) for real-time status updates, enabling instant notifications across patient workflows.
- Engineered end-to-end patient check-in via QR code and a wallet system for secure, seamless payments.
- Enhanced platform scalability and performance on GCP to support concurrent users and high-frequency medical operations.

EDUVY – Education & College Admission Platform | *Angular.js, Node.js, Express.js, MongoDB, AWS*

A college admission platform enabling students to search colleges, explore courses, and apply online, streamlining the entire admission process.

- Developed college search, course exploration, and multi-step online application workflows using Angular and RESTful APIs on AWS.
- Integrated backend APIs on AWS to support real-time data handling and a smooth multi-step application experience.

ELYSIAN BOOK – Parlour Slot Booking App | *React.js, TypeScript, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, Clean Architecture*

A platform simplifying beauty parlour appointment booking with an intuitive experience for both users and salon owners.

- Built a complete booking system with dynamic location-based search, appointment management, real-time chat (Socket.IO), and Stripe payment integration.
- Developed admin and salon dashboards featuring reports, analytics, and coupon management to improve operational efficiency.

EDUCATION

B.Sc. Computer Science | Calicut University, Kerala | CGPA : 7.483 (74.83%)

2020 – 2023
